### Minutes

Opening Remarks - Johnny Harris

Agenda Items:

1. **Dominion Representatives/Designers Response Issues** - (Fairfax and Loudoun County) – Dominion has provided up to date contacts to escalate issues. It is now located on the VEPGA website at <http://www.vepga.org/pages/powercontacts.htm>
2. **Missing Streetlight Pole Identification Tags** – Streetlight poles with missing stencils should be restenciled during service. If there is a concern about missing stencils on specific poles, the municipality can send the information to Dominion Outdoor Lighting team for review and resolution.

3. **Silverlight Reporter Issues** – There was some questions regarding what Silverlight 5 will be compatible with. Silverlight 5 is compatible with Firefox and Safari through 2016 and is currently incompatible with Chrome. Dominion will continue to utilize Silverlight 5 as the underlying technology for the Streetlight Outage Reporting System (SORS) for the foreseeable future. Based on Dominion research, Silverlight 5 will be compatible with Windows 7 SP1 or higher well into the year of 2021.
4. **Decorative LED Lighting Survey** – VEPGA JAC Representative has been asked to request feedback from VEPGA members to present to the VEPGA board on new LED decorative fixtures and poles options. An email to members for a survey to follow. Here is the link to the current offerings: <https://www.dom.com/corporate/what-we-do/related-business/dominion-products/outdoor-lighting>
5. **New LED Decorative Rate Schedule** – Dominion will be providing this new rate schedule to VEPGA board for review in March.

As a reminder, the location of the current VEPGA contract is located here:
